Shipping & Customs Information

Apollo handles all your shipping needs through our local logistics and brokerage companies and we are able to ship anywhere in the world.

We set up all the shipping for you and you pay the logistics company directly for the shipping costs. This will save you money. You will deal directly with the shipping company to track your order. And even though it is rare, you will deal direct with any damages that may occur while in transit. It is the responsibility of you, the customer, to inspect your unit upon arrival and report any damages immediately to the shipping company, the carrier and Apollo. Please record any damages in writing as well as by photo.

Apollo will deal with all the customs clearances and brokerage so there is no worry about your order crossing the border. Apollo also covers the costs of the brokerage fees.
