Registered with Motor Vehicles

Meets Vancouver Coastal Health requirements.

At Apollo, we use high quality 304 #4 stainless steel in our backsplash, hoods, counters, doors and any other stainless steel product manufactured at our facility. There is no wood used in the manufacturing of any component within an Apollo Concession Cart or Trailer. In mobile carts a wood based product is added underneath directly below the cart countertop to ensure rigidity of the countertop.

All water system parts are NSF and/or CSA approved.

All propane part & equipment are CSA and/or UL approved.
